

How to Start Live Translation in the Breeze Translation Software

1. Navigate to the Breeze Translation webpage and click on log in the top right corner <https://breezetranslate.com/>.

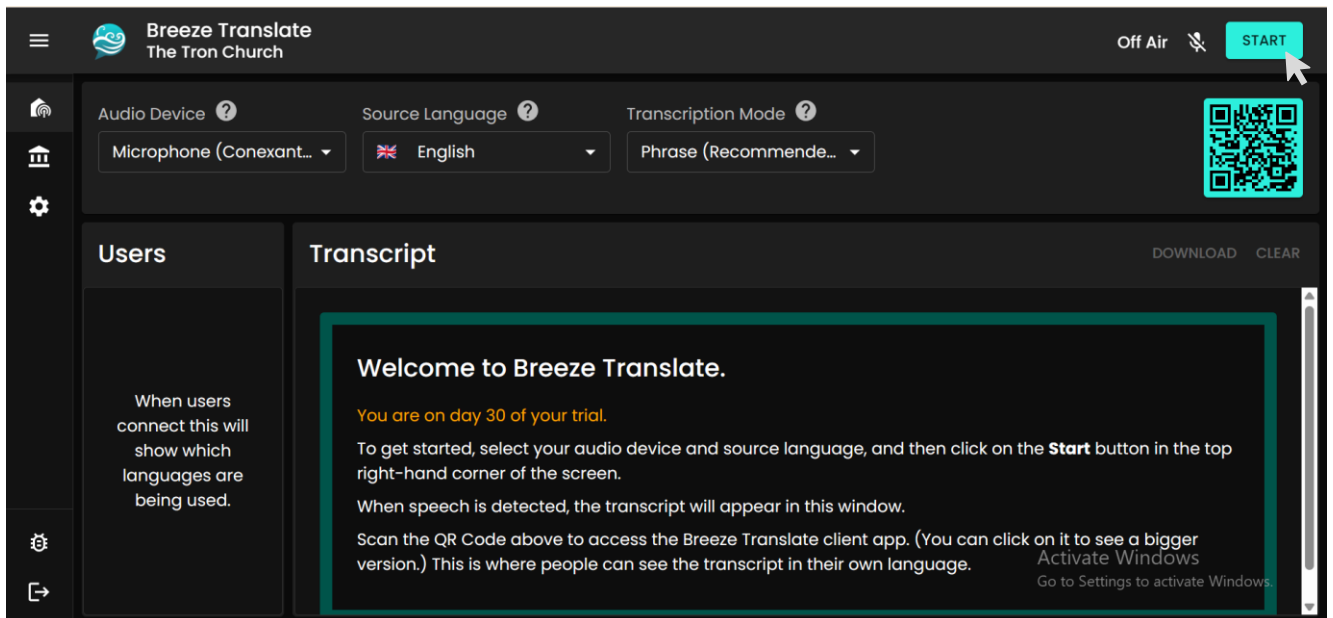

2. Enter the email and password in the appropriate fields.

Email: sound.team@tron.church

Password: TronlationC

A screenshot of the Breeze Translate sign-in page. The page has a dark background. At the top is the Breeze Translate logo and the text "Breeze Translate". Below this is the heading "Sign in". There are two input fields: "Email" with the value "sound.team@tron.church" and "Password" with the value "TronlationC". To the right of the password field is an eye icon. Below the input fields is a large blue "SIGN IN" button. At the bottom, there is a link that says "RESET PASSWORD".

3. Once you've logged in click the start button in the top right corner and this will start the translation.

Note: If you're the non-streaming venue, the translator won't detect speech when both stream and translation run in the same browser. To get around this, open Breeze in Safari and the stream in Chrome.
